

1. A knowledge of the English language as far as speaking and being able to write an intelligible letter.
2. Arithmetic as far as vulgar and decimal fractions. 3
3. Algebra—the first four rules.
4. Geometry and Trigonometry. Some knowledge of Euclid and the meaning of the terms employed in Plane Trigonometry, as well as a fair acquaintance with the use of Log Tables, both numbers and sines, co-sines, &c.

V. Candidates will either have to pass an examination in the above subjects or furnish a certificate from the Principal of the school they have studied at, of their acquirements.

VI. All who may be appointed will have to undergo a training in drawing and in professional subjects connected with the survey for about a year during which time they will be “on probation,” but will receive pay and travelling allowance as if on the permanent establishment. Subsequent increase of salary will depend on the merit, capacity, and ability displayed by the Sub-Surveyor and a speedy or less rapid rise will be determined by his own exertions.

VII. Two or three appointments will be open to men shewing an aptitude for office duties and accounts.

VIII. Some 50 or 60 men will be required to fill the positions of Peons and Kalasis, but only those possessing certificates of good character need apply.

Application to be made to—
